

Figure 2.2 Estimated Number of Dolphin Observers during Marine Construction Works at Different Pier Sites

---

<b>Viaduct</b>	<b>Piers</b>	<b>Estimated No. of Dolphin Observers</b>
A	A1 - A7	1
B	B1 - B7	1
C	C1 - C6	1
D	D1 - D7	1
E	E1 - E13	1 to 5

Remarks:

- (1) The estimated number of Dolphin Observers is based on the tentative construction programme provided by the Contractor which is subject to change after review with the latest construction programme.
  - (2) Dolphin Observers can have an observation circle of 250m in radius provided views are not being obstructed.
-
